## THE W56WV CEILING FAN WHAT'S GOOD?

### MINIMALISTIC DESIGN

It is safe to say the Minimalism will never go out of style. It is more than just clean lines and designs. It is a way of life. The W56WV ceiling fan is sleek and is the perfect addition to any modern day interior design. The solid black or white coloured fan evokes an elegant yet modern impression in the home living area.

### PERFORMANCE

The 3D blades on the W56WV are specially designed to generate stronger air flow. The curve and angles of the blade are carefully fabricated to provide a much smoother airflow, while maintaining operational noise at the lowest levels.

### SCANDINAVIAN

Characterized by simplicity, minimalism and functionality, many Scandinavian interior designs depends heavily on materials like wood, and bright whites with pops of black. The white version of the W56WV is the perfect accessory to achieve the complete and classic scandinavian look. If you are looking to up the elegance game, the black version of the fan has just the right amount of contrast for this interior.

### CONTEMPORARY

The colour black is often used to define the contemporary style. The decorative style is defined by simplicity and subtle sophistication. The W56WV in black is able to make a bold statement with its distinct and slightly matt appearance but at the same time maintaining the uncluttered and smooth look.

# LIGHT IT UP

with the **U60FW DC CEILING FAN**

It's all about the  
**MOOD**

Play up the atmosphere and mood element of your house with the U60FW ceiling fan as it offers various colour light settings and brightness levels to choose from. Create an intimate and relaxing mood after a long day at work with the warmlight setting or the cool light setting to simulate a comfortable and cosy feeling.

Embrace  
**NATURE**

One of KDK's most innovative features is the 1/f Yuragi. This feature aims to simulate the pattern of natural breeze that you find in grassy plains. This added feature is especially useful for people that prefers a more rhythmic flow of wind that can be quite refreshing and comfortable at times!

# STYLE

The Transitional style is all about mixing both traditional and modern furnishings and decor. Integrate vintage chairs and tables in the living area, and allow the U60FW to embrace the modern part of the interior. The U60FW offers a dynamic solution for this interior design, by showcasing its soft lines and modern design.

### Pretty Lit!

Without having to take up space in your room, the U48FP offers a secondary light source for mood lighting. The U48FP is also an excellent alternative to your traditional bedside table lamp. Never worry about harsh or flattened light as the lamp offers 3 different brightness settings that can be easily changed with the touch of a button on the remote control.

### Safeguard Your Interest

Having a ceiling fan in your room should be the least of your worries. KDK is first in the market to introduce the Patented Safety Design, putting multiple safety features in place such as a Cut-off Safety Switch, Safety Switch and the Fall Prevention Plate. We are committed to ensure that safety and quality remains uncompromised.

# LESS IS MORE

Using bare essentials to create an uncluttered space, the Minimalistic interior is about the clean lines and smooth surfaces. Though the design prioritizes on single-color decoration, there is no 'right' colour. Choose from black or white, the U48FP serves as the perfect accessory for that monochromatic touch of contrast.

Perfect  
BALANCE

**T60AW**  
DC CEILING FAN

The T60AW DC Ceiling fan is the perfect balance between the black and white fans KDK has to offer. T60AW offers a timeless design, and a practical gray colour that could easily be integrated into various interior styles.

Photo: Dots N Tots

## The Power of COLOUR

The colour grey is often perceived as the absence of colour, but it evokes a kind of sophistication like no other. This is definitely the option for people that appreciate subtle contrast. The timeless design and colour of the fan also allows a harmonious mix of other colours in your room. However you'd like to feel, the T60AW resonates with you.

## PERFORMANCE

The T60AW is the final model of the DC Ceiling Fan lineup, expect nothing less than a high performance yet energy efficient ceiling fan equipped with the best safety features.

## INNOVATION

The T60AW works hard behind the scenes so more energy could be saved. The built-in Thermal Sensor is able to intelligently adjust its air velocity based on the change in room temperature.

# WHEN GREY MEETS WOOD

## The Almost Perfect Combination

When grey furnishings combine with wood accents or style, the result is distinct and impactful. The earthy and wood elements and the ever modern design of the T60AW offers a good blend of the present and the past. This approach of colours creates a more dramatic and decadent feel.
